Questions and answers regarding Fun Day, Fair, points, trophies, patches and pins

Question:
Will Fun Day and Fair be cancelled due to the COVID-19 virus?

Answer:
This has not been determined quite yet. We are waiting for the Conference to tell us what we need to do. Please go to www.rmcap.org for a message from our Youth Department

Question: If we have to cancel the Pathfinder and Adventurer events, will we still get a patch for Fun Day and a pin for Fair?

Answer:
No, we are holding off on ordering these and if we do get to have these events, we will order them and mail them to everyone after the event. If not we will not get them.

Question: Will we still get our club trophy even if we aren’t allowed to have the event?

Answer:
Yes

Question:
How will we have enough points to qualify for our club trophy if we can’t fulfill all the requirements due to the current situation?

Answer:
We want our kiddos to earn their trophy. It is important to be rewarded for hard work. Here are the parameters for earning under these strange and stressful times.

First of all, check the points online to see if you are missing any that you know you have reported.

1. All the activities before this crisis hit should have been completed and reported. If you did them and did not report them, please report them now.
2. Since you cannot have a weekly meeting, just send in the monthly report and say we could not have any meetings this month due to the COVID-19 virus. We will give you the full 50 points for March and April if you are still quarantined.
3. If your kiddos can do a Share your Faith from home and honors from home, report it.
4. If you have not scheduled your inspection yet, call your Area Coordinator and they can ask you the questions on the form over the phone and report it to Tomsi or Connie and you will get the points.
5. We are not sure about whether we will be able to have Investitures. If we can’t, and you have registered for one, you will get the points.
6. We will give points for Fun Day and Fair if you are registered, whether we actually have them or not.
